Professional Summary

First-year B.Tech Computer Science student with hands-on experience in frontend web development and hackathon-based product building. Skilled in HTML, CSS, JavaScript, and React, with growing knowledge of backend development and databases. Interested in building practical web applications and learning through real-world internship experience.

Technical Skills

Languages	JavaScript, HTML5, CSS3, C, Java
Frontend	React.js, Tailwind CSS, Responsive Design
Backend	Node.js (Basics), Express.js (Basics), REST APIs
Database	SQL Basics
Tools	Git, GitHub, VS Code
Concepts	Data Structures, OOP, DBMS Basics

Projects

Devika – Rural Business & Talent Ecosystem

Built a web platform concept focused on rural empowerment by connecting local talent and business opportunities. Developed frontend modules using HTML, CSS, and JavaScript with responsive UI design.

Secure Coding Assessment Platform

Built a coding test platform during a hackathon with features focused on candidate monitoring and test integrity. Worked on frontend workflows, interface design, and collaborative product development.

Health Bridge – Rural Healthcare Access Platform

Designed a platform concept for workers to access healthcare records, services, and dashboards. Contributed to UI planning, workflow structure, and user-centric features.

Hackathons & Activities

Participant	Smart India Hackathon 2025
Volunteer	IEEE Conference at Symbiosis University
Volunteer	ISRO Exhibition Event
